Professional Summary

Motivated and detail-oriented Frontend Developer with hands-on experience building real-world applications using React, TypeScript, JavaScript, and CSS. Skilled in developing scalable, responsive, and data-driven web solutions with a strong focus on usability and performance. I love writing clean, understandable code and enjoy working with people who share the same values. Collaborative team player passionate about solving complex problems and contributing to innovative projects. Seeking a Front-end Engineer role to apply technical skills and creativity in building next-generation applications.

Skills

- Frontend: JavaScript, Typescript, React js, Next js, Tailwind CSS, HTML, CSS
- Tools & Technologies: Git, GitHub, VS Code, Postman
- Others: REST API Integration, Responsive Design, State Management (useReducer, useState), Team Collaboration, Problem Solving

Projects

- HavenList App | GitHub Repository: <https://github.com/Stking19>
 - Developed a real estate listing platform connecting property owners and clients with secure transaction milestones.
 - Integrated dynamic search and pagination for listings.
 - Designed a complex and responsive UI using plain CSS.
 - Implemented efficient data fetching and optimized rendering for large datasets.
 - Designed interactive dashboard with real-time updates.
- Weather App | GitHub Repository: <https://github.com/Stking19>
 - Built a weather application that fetches and displays real-time weather data based on user input.

- Consumed weather APIs with Axios and React.
- Implemented a responsive and clean user interface using Tailwind CSS.
- Voting App | GitHub Repository: <https://github.com/Stking19>
 - Created a voting system with user registration, secure voting, and live result displays.
 - Built the user interface with React and styled it using plain CSS.
 - Used React hooks for state management and real-time input validation.

Education

The Curve Africa

Graduated: April 25, 2025

Completed Tech Program in Frontend Development, API Integration, and UI/UX Best Practice
